6	M/s CADILA PHARMACE UTICALS LIMITED	<p>Recommendation :- Request you to amend the High Price/ Low Price Certificate clause in the upcoming tenders. There are major issues with this clause such as:</p> <p>1. As mentioned we cannot quote a lower price during the validity of the R.C. which usually is over 2 years. This means for 2 years all our competition will know that we will not be able to quote a price lower than BMSICL (THE RATE FOR WHICH WILL BE KNOWN TO EVERYONE) . BY DOING SO, OUR RATE WILL BE OPEN TO ALL THUS NOT Allowing us to participate in any new tender during our R.C. with BMSICL.</p> <p>2. It also a well known fact that the Raw material/API fluctuation in the industry can be more than 150% - 300% within 6 months time which is in no ones control. By limiting us to quote a similar price for two years is not feasible. It would be ideal if you can limit the High Price/Low Price Certification to the State of Bihar. That we cannot supply at a lower price during the R.C. in state of Bihar.</p>	<p>ANNEXURE-VIII HIGHER PRICE/LOWER PRICE CERTIFICATE</p> <p>1. 7	M/s SHINE PHARMACE UTICALS LIMITED	<p>Recommendation : - Request you to consider changing the Price Certificate clause in the upcoming drug tenders.</p> <p>As mentioned in the tender, one cannot quote a lower price during the validity of the R.C. which usually is over 2-3 years.</p> <p>According to this for 2-3 years all our competitors will know that we will not be able to quote a price lower than what we have quoted in your corporation (BMSICL)</p> <p>Thus, our rate will be open to all and not allowing us to participate in any new tender during our R.C. with BMSICL.</p> <p>Also, every state corporation consumption pattern is different. For Ex. BMSICL might tender a certain product mentioning a Qty of 25, 00,000 tabs whereas CGMSCL/TMSCL/UPMSCL/MPPMSCL/ may tender the exact same product mentioning a Qty of 1,00,00,000 tabs. For any commercial organization a higher quantity would be more feasible both financially and operationally and they will be able to quote a lower rate in the corporation which has higher quantity.</p>	<p style="text-align: center;">ANNEXURE-VIII HIGHER PRICE/LOWER PRICE CERTIFICATE</p> <p>1. Kindly also consider the fact the Raw material/API fluctuation in the industry can be more than 10%-200% within one year time which is beyond control. By basking us to quote a similar price for two years is not possible as the cost for production can drastically change.

We would like to recommend if you can limit the High Price/Low Price Certificate to the State of Bihar. We are looking forward for your cooperation.

to any Government/ Semi Government/ Public / Charitable Trust Organization / Institution within the period of 180 days preceding the last date of submission of the tender.

3. I/We hereby undertake that I/We will not supply or quote for any item in Tender Enquiry # _____ at prices lower than those quoted for the relevant items to any Government/ Semi Government/ Public / Charitable Trust Organization / Institution within the period of validity of the offer/ rate contract.

4. I/We also undertake to bring to the attention of the Managing Director any incidence of breach of any of the above paras within 30 days from the occurrence of the breach and further undertake to refund /

8	<p>M/s MEDICEF PHARMA</p>	<p>Recommendation:- Request you to amend the High Price / Low Price Certificate clause in the upcoming tenders. There are major issues with this clause such as:</p> <ol style="list-style-type: none"> 1. As mentioned we cannot quote a lower price during the validity of the R.C. which usually is over 2 years. This means for 2 years all our competition will know that we will not be able to quote a price lower than BMSICL (the rate for which will be known the everyone). By doing so, our rate will be open to all thus not allowing us to participate in any new tender during our R.C. with BMSICL. 2. It is also a well known fact that the Raw Material/ API fluctuation in the industry can be more than 150%-300% within a 6 months time which is in no ones control. By limiting us to quote a similar price for years is not feasible. 3. Also, every states consumption pattern is different. For Ex. BMSICL might tender a certain product mentioning a Qty. of 1,00,000 whereas UPMSICL or MPPMSCL may tender the same product mentioning a Qty. of 4,00,000 which usually happens. As a corporate organization a higher quantity would be more feasible both financially and operationally for us thus we will be able to quote a better rate in the 	<p>ANNEXURE-VIII HIGHER PRICE/LOWER PRICE CERTIFICATE</p> <p>1.
